

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

of Dr. F. B. Hollenbeck at 1836 South 20th Street. This or another Mockingbird wintered at the same place from October, 1920, to April, 1921. This is the first definite wintering record of the species for this locality.

A Townsend Solitaire, also, is wintering at Lincoln, in Wyuka cemetery.

Lincoln, Nebraska.

MYRON H. SWENK.

#### SOME BIRD NOTES FROM CENTRAL AND WESTERN NEBRASKA

Since the publication of the records of the Whooping Crane in Nebraska by M. H. Swenk, in the March, 1921, number of the Wilson Bulletin, I saw a pair of these birds on April 2, 1921, and a lone one a few days later. One bird was also seen in the fall of 1921, about October 20.

On May 18, 1921, a fine male Cape May Warbler was collected at Kearney, Buffalo county, which is the westernmost record for the species in the state.

In August, 1921, two Broad-tailed Hummingbirds were killed by flying against a plate glass show window on the principal street of Kearney during the night. Probably there was a migration through the locality and the birds were deceived by the glare of the electric lights.

My friend, Miles Maryott of Oshkosh, Garden county, reports to me that a Saw-whet Owl was chased out of a coal house and knocked off a post with a lump of coal by a resident of that place in the fall of 1921, constituting a new locality record for the species. He also reports the Gray-crowned Rosy Finch as present at Oshkosh on January 22, 1922.

C. A. BLACK.

Kearney, Nebraska.

#### WINTER BIRDS OF SOUTHERN WISCONSIN

The winter of 1920-21, noted for its mildness, noticeably affected the bird life of that period. There was a great scarcity of northern visitors and an increase in the number of summer residents, which remained through the winter. The bird list is of interest because it is rather unusual. It was compiled from the December, January and February records of the writer and the following observers: Warner Taylor, Clarence S. Jung and A. W. Schorger, Madison; Herbert L. Stoddard, Milwaukee; W. E. Snyder, Beaver Dam; Ed. Oschner, Prairie du Sac; Miss Lulu M. Lunn, Racine; Miss Susie L. Simonds, Hartland; Arthur Gare, Camp Douglas; H. E. Andrews, Portage.

Herring Gull, Ring-billed Gull, Bonaparte's Gull, Merganser, Mallard, Black Duck, Shoveller, Pintail, Canvas-back, Lesser Scaup Duck, Ring-necked Duck, Golden-eye, Buffle-head, Old-squaw, White-winged Scoter, Canada Goose, Coot, Wilson's Snipe, Killdeer, Bob-white, Ruffed Grouse, Prairie Chicken, Mourning Dove, Marsh Hawk, Red-tailed Hawk, Kreider's Hawk, Sparrow Hawk, Long-eared Owl, Short-eared Owl, Barred Owl, Saw-whet Owl, Screech Owl, Great Horned Owl, Snowy Owl, Belted Kingfisher, Hairy Woodpecker, Downy Woodpecker, Arctic Three-toed Woodpecker, Northern Pileated Woodpecker, Red-headed Woodpecker, Red-bellied Woodpecker, Northern Flicker, Horned Lark, Prairie Horned Lark, Blue Jay, Crow, Cowbird, Red-winged Blackbird, Meadowlark,
